Liz and Troy

Ex. 5 - Deliberative Process

I would be more than happy to talk you through a few of these examples if this is helpful.
Otherwise, I will leave this in your good hands.

Cheers!

Michael

Dear Colleagues

I got the chart embedded in one of my questions. So I think I can take it from here.

Cheers!

Michael

Subject: Pro bono story

Hi, can someone please provide me with a clip of one of the news stories Professor Dourson was referring to here at this week's confirmation hearing?

"The one [pro bono effort] that was the most fulfilling to me is, we were a public organization, we had members of the public come in. I had a younger mother come into my office one day. She was distraught. No one had been listening to her. She didn't know where to turn. She went to the web, found our site. She relayed her story. Her family had been poisoned. It became obvious to me that the poisoning was likely hydrogen sulfide which is a very serious poison. Her four children were affected, her horses were affected, the dogs were dead. It was really a very severe case. So after a little bit of additional study we were able to get her the medical attention and then the legal support she needed to carry on. **That made the local news several times.** That was very gratifying, although honestly dealing with the public one-on-one like that was not the most direct part of our pro bono."

I looked for stories that matched his description on Google and Nexis and haven't found anything, so I'm guessing it didn't make the newspapers. If the professor didn't keep any of copies of the stories, please let me know which TV or radio stations they ran on. I'm doing some follow up reporting on this anecdote.

Thanks, C

Corbin Hiar
